

# QUALITY CERTIFIED

With superior service in mind, Aviation Metals is committed to assuring that quality is a priority within the organization and that materials are supplied in accordance to our customer's requirements.

With this assurance, Aviation Metals has been quality approved and certified to the ISO9001:2000 and the Aerospace AS9100 rev. B quality standards in accordance with the requirements of AIR5359B. Aviation Metals Quality Management System has been assessed and approved by National Quality Assurance, U.S.A. (NQA), an ANAB accredited and internationally recognized third party registrar.

Additionally, we are quality approved by many customers including but not limited to Gulfstream Aerospace, Lockheed Martin, Northrop Grumman, B/E Aerospace, many large domestic and foreign airlines, and the Department of Defense.
